

Northgate Minerals Corporation is currently recruiting the following challenging position to join our management team:

## **Mill Superintendent**

The Young-Davidson Project is owned by Northgate Minerals Corporation and is located in Matachewan, Ontario, approximately 60 km west of Kirkland Lake. Northgate has been conducting advanced exploration at Young-Davidson since 2006 and is preparing to transition to construction and ultimately operation. More information on Northgate and the Young-Davidson Project can be found on our website at [www.northgateminerals.com](http://www.northgateminerals.com)

Reporting to the Young-Davidson Project Manager, the Mill Superintendent will be responsible for overseeing the detailed engineering, construction, commissioning of the process plant, recruitment/hiring, and ultimately, the efficient operation and maintenance of a 6,000 tonnes per day plant. Other key qualifications include:

- A minimum of 5 years experience as a superintendent in a gold processing plant. Previous solid knowledge of AG/SAG mill operations, flotation, CIL, carbon elution and refining operations.
- Strong leadership skills
- Proven ability to meet safety, production and budget targets
- Strong organization and time management skills
- Previous experience managing successfully in a hourly environment is preferred
- Computer literacy skills in Word and Excel
- Metallurgical degree or related degree preferred.

Young Davidson offers competitive salaries and benefits packages with opportunities for both personal and professional advancement.

Qualified candidates are invited to send their résumé with contact information for three work related references to:
