

Northgate Minerals Corporation is currently recruiting the following challenging positions to join our operational team:

Mine Supervisor Underground

Northgate Minerals Corporation is currently constructing the Young-Davidson Mine which is located in Matachewan, Ontario, approximately 60 km west of Kirkland Lake. With production scheduled for late 1st quarter of 2012, we are in the process of staffing for senior operational roles. More information on Northgate and the Young-Davidson Project can be found on our website at www.northgateminerals.com

Reporting to the Mine General Foreman the successful candidate will be responsible for the daily planning and organization of ramp and lateral and development crews. Promotion of company safety programs and providing leadership to insure conformance to government regulations and internal policies require candidates have good communication skills coupled with strong leadership abilities. Successful candidates will have their supervisory common core.

Other key qualifications include:

- A minimum of 3 years supervisory experience in mining operations.
- Strong analytical and problem-solving skills; ability to work independently.
- Computer proficient.
- Post secondary education in mining related field would be beneficial.
- Train the trainer would be an asset

Young Davidson offers competitive salaries and benefits packages with opportunities for both personal and professional advancement.

Qualified candidates are invited to send their résumé with contact information for three work related references to:
