

Northgate Minerals Corporation is currently recruiting the following challenging position to join our technical team:

Open Pit Planner

The Young-Davidson Mine owned by Northgate Minerals Corporation is located in Matachewan, Ontario, approximately 60 km west of Kirkland Lake. Northgate has been conducting advanced exploration at Young-Davidson since 2006 and is currently in the construction phase with production scheduled for 2012 and expected mine life of 15 plus years. More information on Northgate and the Young-Davidson Project can be found on our website at www.northgateminerals.com

Reporting to the Chief Mining Engineer and interacting closely with the Geology Department the Open Pit Planner will be responsible for long and short term mine planning, ensuring ore supply to the mill and other grade control requirements are met. As well the Open Pit Planner will work closely with the open pit mining contractor monitoring compliance to Northgate Minerals health and safety standards and providing input into efficient and effective open pit mining operations. Key qualifications include:

- Post secondary education in a mining related field
- A minimum of 5 years relevant experience
- Strong interpersonal, communications, and analytical skills.
- Experience with A Mine, AutoCAD, Vulcan or other mine planning soft ware.
- Strong organization and time management skills.

Young Davidson offers competitive salaries and benefits packages with opportunities for both personal and professional advancement.

Qualified candidates are invited to send a covering letter, contact information for three supervisor references along with their resume to:
