

Northgate Minerals Corporation is currently recruiting the following challenging position to join our technical team:

Open Pit Geologist

The Young-Davidson Mine owned by Northgate Minerals Corporation is located in Matachewan, Ontario, approximately 60 km west of Kirkland Lake. Northgate has been conducting advanced exploration at Young-Davidson since 2006 and is currently in the construction phase with production scheduled for 2012 and expected mine life of 15 plus years. More information on Northgate and the Young-Davidson Project can be found on our website at www.northgateminerals.com

Reporting to the Chief Mine Geologist the Open Pit Geologist will be responsible for all open pit geological functions including grade control and reconciliation as well as geological and geotechnical mapping. The Open Pit Geologist will interact closely with the Open Pit Planner on short and long range mine plans as well as assisting in the oversight of the Open Pit Contractor. Key qualifications include:

- Bachelor of Science in Geology
- A minimum of 3 years relevant experience
- Experience with A Mine, AutoCAD, Vulcan or other mine planning soft ware.
- Strong organization and time management skills.

Young Davidson offers competitive salaries and benefits packages with opportunities for both personal and professional advancement.

Qualified candidates are invited to send a covering letter, contact information for three supervisor references along with their resume to:

**Northgate Minerals Corporation – Young Davidson Project
Human Resources**
