

## SATURDAY FEBRUARY 8, 2020 REVIEW OF THE ANNUAL WORK SCHEDULE (AWS) FOR 2020

Timiskaming Forest Management AWS for 2020 of the 2011-2021

We will also be discussing the area of concerns maps that were taken to the trappers and land users to circle their areas of concern

This is your opportunity to have input in the new plan, take a look at the maps of areas that may be a special interest to you & share your concerns, values, comments, areas that may be very sensitive that should be taken out of the plan.

Please come out to help me ensure your voice is heard loud and clear.

Start Time

2:00 - 4:00

Presentation & Maps Drinks & Snacks will be available

Cathy Yandeau ---Lands & Resources

Annual Work Schedule Presentations by TFAI Plan Author & MNRF

The AWS identifies forest operations and activities including: harvesting, renewal, tending operations and road construction, which will be carried out from April 1, 2020 until March 31, 2020, consistent with the approved 2011-2021 Timiskaming Forest Management Plan.

If you have an interest in the forest you should definitely attend
