

PUBLIC INFORMATION SESSION

New Tailings Storage Facility and Effluent Discharge Relocation

Northern Sun Mining Corp. – Redstone Mill Project South Porcupine, Ontario

Northern Sun Mining Corp. is preparing to begin construction on a new Tailings Storage Facility and Effluent Discharge Relocation at the Redstone Mill. A public information session is being held to provide a platform to engage the public, Aboriginal communities, and other affected stakeholders regarding these projects.

Northern Sun Mining Corp. – Redstone Mill is located within the municipal boundaries, approximately 30 km east of the City of Timmins, in Eldorado Township. The new Tailings Storage Facility will have a footprint of 746,821m² and will store approximately 6 million tonnes of tailings. The Effluent Discharge Relocation project will consist of a pump and piping system to carry the effluent directly to the Redstone River.

**WHEN: Wednesday, August 16th,
 2023
 1:00 pm to 4:00 pm**

**WHERE: Ramada Timmins
 1800 Riverside Drive,
 Timmins**

Representatives from Northern Sun Mining will be available to provide information and answer questions regarding these projects. If you are unable to attend these sessions, or wish to obtain further information, please contact:
