Agnico Eagle Mines' Macassa Mine is situated on the traditional homelands of the Apitipi Anicinapek Nation and Matachewan First Nation. In honoring our relationships with and commitments to our Partner Nations, Agnico Eagle prioritizes the hiring of Members from these Nations. To support this commitment, members from these Nations seeking employment opportunities at the Macassa Mine are encouraged to self-identify during the job application process. This ensures that we can consider your application appropriately in line with our dedication to supporting our Partner Nations.

## YOUR CONTRIBUTION:

Reporting to the Underground Maintenance Superintendent, you will be part of the Mill Maintenance Department. You will be responsible for leading and scheduling all process plant planning & reliability activities to support the achievement of production goals in a safe, efficient and cost effective manner. You will also ensure that the goals and objectives are achieved while promoting and respecting Agnico Eagle's values, Health & Safety Code of Conduct and the environment.

- Collaborate with maintenance personnel to execute an effective maintenance strategy;
- Operate in compliance with all applicable legal and engineering standards and specifications;
- Continuously monitor, develop and implement best and most effective practices to assure quality, safety and efficiency of procedures;
- Assess and evaluate company and contractor SOP's with respect to efficiency and quality, as well as from a safety, health and environment perspective;
- Investigate and analyze equipment breakdown history/trends to resolve maintenance practice deficiencies and improve the quality of repairs;
- Support team in the achievement of annual targets through the effective use of resources.

## WHAT YOU NEED TO SUCCEED:

- Bachelor's Degree in Mechanical or Electrical Engineering or the equivalent combination of education and experience;
- 5+ years in planning and reliability management;
- 10+ years in large scale process plant maintenance;
- Professional Engineer (P. Eng.) designation is an asset;
- Exposure to project management techniques;
- Excellent working knowledge of all Microsoft Office Suite applications especially Outlook, Excel, Word & PowerPoint.
