Surveyor

MAC00143

WHAT DOES AGNICO EAGLE VALUE?

At Agnico Eagle, our values never waver. We believe in trust, respect, equity, family and responsibility. Why? Because they express who we are, and they have helped us succeed in business for over 60 years. We value **you** – your unique set of skills and experience. We value your willingness to build those skills and make a meaningful contribution to our company. And, we value your commitment to treat every person on our team with respect, helping us to operate safely, protect the environment and make a positive contribution to our local communities.

ABOUT OUR OPERATION

Want to learn more about the Macassa Mine? [Click here!](#)

Agnico Eagle Mines' Macassa Mine is situated on the traditional homelands of the Apitipi Anicinapek Nation and Matachewan First Nation. In honoring our relationships with and commitments to our Partner Nations, Agnico Eagle prioritizes the hiring of Members from these Nations. To support this commitment, members from these Nations seeking employment opportunities at the Macassa Mine are encouraged to self-identify during the job application process. This ensures that we can consider your application appropriately in line with our dedication to supporting our Partner Nations.

In compliance with the Accessibility for Ontarians with Disabilities Act, Agnico Eagle Mining (AEM) is committed to providing accommodation for people with disabilities. Accommodation is available, upon request, for candidates participating in the recruitment process.

YOUR NEXT CHALLENGE:

Reporting to the Survey Supervisor, you will be part of the Engineering Department. You will be responsible for marking up development lines, performing development pick-ups, long-hole drill ring mark-ups, CMS surveys, drill hole gyro tests, updating survey drawing, issuing survey plans and doing month-end calculations. You will also ensure that the goals and

objectives are achieved while promoting and respecting Agnico Eagle's values, Health & Safety Code of Conduct and the environment.

- Survey control points advanced, data downloaded and entered into Deswik or other related programs;
- Update all Deswik level plans on an as needed basis;
- Provide reference tools for the mine department to operate effectively and accurately;
- Issue development heading updates;
- Survey production hole toes and collars and perform gyro tests to support drill and blast design;
- Survey all diamond drill holes, service holes and others as requested;
- Perform cavity monitor surveys of all stopes, raises, etc.;
- Provide survey support to operations in both underground and surface locations;
- Track and report the monthly advance of mine development and rehabilitation;
- Measure ore and concentrate stockpiles on a bi-monthly basis;
- Perform routine check surveys to ensure precision and accuracy are maintained in all mine survey data and control points;
- Keep track of required survey equipment calibration and repairs;
- Complete all survey month-end calculations accurately and in a timely manner;
- Perform other duties as required.

WHAT YOU NEED TO SUCCEED

- Survey/Engineering Technical Diploma (2 years or greater required) or equivalent experience;
- Minimum 2 years' experience in underground operating mine sites;
- Proficiency with Deswik or other underground mining survey and design software;
- Accuracy and attention to detail;
- Ability to work under pressure;
- Reliable and self-managing;

- Strong people skills and an ability to work in a team environment;
- Working knowledge of mine design software is an asset (Deswik, AutoCAD, Promine);
- Knowledge of total station setting;
- Ability to use and calibrate associated survey equipment;
- Valid G class license;
- Excellent working knowledge of all Microsoft Office Suite applications especially Outlook, Excel, Word & PowerPoint.
