

SAMPLE PREP TECHNICIAN

Work Location: Timmins, ON

Reference Number: 2025-013

Position Type: Full-time

Work Schedule: 5-5-4 rotation, 12-hour shifts

Compensation: Hourly, based on experience and qualifications.

COMPANY OVERVIEW

Northern Sun Mining is a reputable mining company located 25 km southeast of Timmins, Ontario, where it owns and operates the Redstone concentrator. For almost a decade, Northern Sun Mining has been providing custom milling services to various mining communities, demonstrating exceptional recoveries of gold and platinum group metals.

ABOUT THE OPPORTUNITY

Northern Sun Mining currently has an exciting opportunity for a Sample Prep Technician to join our Metallurgical department. Reporting to the Lab Supervisor, the ideal candidate will be responsible for preparing and processing samples for analysis in a laboratory setting. This role is vital in ensuring the accuracy and reliability of test results while adhering to safety and quality standards. Please note that this is not a camp-based position.

DUTIES AND RESPONSIBILITIES

- Responsible for daily preparation of mill samples for assaying:
 - Crushing and pulverizing samples
 - Rolling samples to ensure proper mixing
 - Splitting samples for both in-house and external assays
 - Filtering samples as required
- Maintain accurate records of all samples in both the logbook and computer database:
 - Logging millrun samples daily
 - Recording concentrate values on an as-needed basis
- Maintain a clean and safe work area.
- Work in compliance with prescribed company policies and procedures.
- Be proactive with company safety initiatives.
- Additional tasks as assigned by the Lab Supervisor and/or Engineering Personnel.

QUALIFICATIONS

- High school diploma; post-secondary education in Chemical Engineering Technology or Metallurgical Engineering Technology or equivalent relevant work experience is an asset.
- Lab experience in an industrial environment is highly regarded.
- Basic Mill Process Operator Common Core is an asset.
- Valid driver's license.
- Capable of performing physical tasks.
- Strong ability to accurately measure, record, and analyze data.
- Sound understanding of sampling procedures, quality control standards, and safety protocols.
- Ability to clearly report findings and collaborate effectively with team members.
- Advanced computer skills, including high proficiency in operating spreadsheets and word processing software.

BENEFITS

In addition to a competitive compensation package, we also offer:

- Comprehensive drug coverage and extended health care benefits
- Dental insurance
- Group life insurance
- Long-term disability coverage
- Competitive paid vacation entitlements
- Group retirement savings plan with company match
- Opportunities for career advancement and professional development

HOW TO APPLY

If you are a dedicated and highly motivated individual seeking to join a dynamic team, we encourage you to submit your resume detailing your relevant experience to contact@northernmining.ca. Please include reference number "2025-013" in the subject line.

Note: Only shortlisted candidates will be contacted for interviews. We appreciate all applicants for their interest in our company.

Northern Sun Mining Corp. is an equal opportunity employer. We are committed to providing an environment of mutual respect and we believe that diversity and inclusion among our team members is critical to our success. Wherever possible, accommodation is made for qualified applicants with self-declared disabilities. We are committed to creating an inclusive environment for all employees and all aspects of employment including the decision to hire or promote will be based on merit, competence, performance, and business requirements.
