

## Job Opportunity

Alamos Gold Inc. Young-Davidson is currently recruiting the following challenging position to join our Operations team:

### Surface Millwright

Alamos Gold's **Young-Davidson** is a low-cost, long-life operation and one of Canada's largest underground gold mines. It is located near the town of Matachewan centrally located between Timmins, Kirkland Lake, North Bay and Sudbury, Ontario. The 2020 completion of a highly automated, lower mine expansion has resulted in Young-Davidson increasing production and generating strong free cash flow. With a large Mineral Reserve base, it will serve as Alamos' foundation for growth for many years to come. This is a very exciting time at Young-Davidson, and we are searching for highly motivated and committed people to join our team!

If you are willing to be part of a team that is dedicated to growth, high performance and a culture of safety and accountability, we would like to hear from you!

**Date Posted: April 1, 2025**

**Closing Date: Until Filled**

Reporting to the Supervisor, Plant Maintenance the successful candidate will be responsible for maintenance, troubleshooting and repairs associated with the 8000 tpd mil, paste plant, water treatment systems, tailings, and underground equipment.

#### Primary Responsibilities:

- Install, align, take apart and move stationary industrial machinery, such as pumps, fans, tanks, conveyors, air compressors, jaw and cone crushers.
