YOUNG-DAVIDSON

Job Opportunity

Alamos Gold Inc. Young-Davidson is currently recruiting the following challenging position to join our operations team:

Underground Production Miner (ITH Driller)

Alamos Gold Inc. Young-Davidson Mine, located in Matachewan, Ontario, approximately 60 km west of Kirkland Lake is hiring an Underground Production Miner at Young-Davidson is among one of Canada's largest Underground Gold Mines with growing production and a large mineral reserve base. The successful candidate will have opportunity to work in a mine that is also in the process of expanding the lower mine and completing long-term infrastructure projects. More information on Alamos Gold Inc. and the Young-Davidson Mine can be found on our website at www.alamosgold.com

Date Posted: July 14th, 2020

Closing Date: July 28th, 2020

Reporting to the Mine Supervisor, the successful candidate will be responsible for safe and efficient operation of an ITH drill.

Primary Responsibilities:

- Underground drill set up using provided prints;
- Scaling and doing pre-operation inspection of drill and site;
- Undercut inspection with BT barricade signature every shift;
- Filing 5 point card and maintain accurate operating records, including daily drill reports and inventory logs;
- Perform drilling using ITH drill both manually and remotely when required;
- Manually inserting/pulling rods while drilling;
- Changing bits, hammers, saver-sub and other drilling consumables/attachments as drilling requires;
- Manually cutting PVC casing to the right length and install as production holes are being drilled;
- Install canister reaming head on drill and perform slot hole reaming when required;
- Manually clean holes with compressed air hose or water and clean holes with ITH drill;
- Underground drill take-down, move, general operational maintenance on drill; and
- All other duties, as assigned

Qualifications and Experience:

- 5 years' underground experience as an ITH driller would be an asset;
- Accreditation in U/G common core modules and specialty modules;
- Ability to read prints and follow drill directives;
- Strong Safety focus;
- Self-motivated ability to work alone;
- Strong analytical and problem-solving skills; ability to work independently.

Schedule: 5,4,4,5 rotating schedule
