Manual Tending on the Timiskaming Forest

June 16th, 2025

Last year's Brush Saw Pilot Project was very successful and we are looking to do another project this year.

We are looking for dedicated individuals that are interested in doing this type of work.

This year, we are looking to do anywhere between 2-6 weeks of work in the months of July and August. The wages will be \$25/hr to start, with the intention of switching to piece rate once production rates are met (after the first week).

Onsite training will be provided at the beginning of the project.

Please respond by e-mail to Cathy Yandeau at landsresources@mfnrez.ca with your full name, phone number, and any questions.
